

CLINICAL EVALUATION FORM

AI-Generated Mental Health Reports Study

INSTRUCTIONS

Thank you for participating in this study. You will be presented with two clinical reports generated by an AI system: a **Psychologist Report (Short Form)** and a **Main Report (Long Form)**. Please complete the demographic section, then evaluate EACH report separately using the forms below. Finally, provide your comparative feedback.

PART 1: DEMOGRAPHICS & PROFESSIONAL BACKGROUND

1. Age

2. Gender Identity

- ☐ Female ☐ Male ☐ Non-binary
☐ Prefer not to say
☐ Other: _____

3. Current Professional Role / License

- ☐ Clinical psychologist
☐ Licensed psychotherapist
☐ Other

- ☐ Psychotherapist in training
☐ Psychiatrist
☐ Other: _____

4. Years of Clinical Practice (Post-Licensure)

- ☐ 0-2 ☐ 3-5 ☐ 6-10 ☐ 10+

6. Primary Work Setting

- ☐ Private Practice
☐ Hospital / Medical Center
☐ Community Mental Health Clinic
☐ Academic / Research Setting

5. Primary Therapeutic Modality (Check all that apply)

- | | | |
|---|---|---|
| ☐ Behavioral therapy | ☐ Psychoanalysis | ☐ Depth psychology-based psychotherapy |
| ☐ Systemic psychotherapy | ☐ Other | ☐ Other: _____ |

PART 2: MAIN REPORT (LONG FORM)

A. CLARITY & STRUCTURE

1. Information Hierarchy: Does the report structure (Risk Factors > Observed Data > Likelihood > Recommendations) logically support clinical case formulation?

CONFUSING

1

2

3

4

5

VERY CLEAR

2. Conciseness: Is the report appropriately summarized, presenting key data points without unnecessary detail?

TOO DETAILED

1

2

3

4

5

JUST RIGHT

B. CLINICAL ANALYSIS

3. Identification of Factors: Does the report accurately identify relevant risk and protective factors based on the provided data?

INACCURATE

1

2

3

4

5

HIGHLY ACCURATE

4. Likelihood Assessment: Is the likelihood assessment for future panic attacks well-reasoned and justified by the evidence presented?

POOR

1

2

3

4

5

WELL JUSTIFIED

C. TREATMENT RECOMMENDATIONS

5. Relevance: Are the treatment recommendations directly linked to the observed data and identified risk factors?

IRRELEVANT

1

2

3

4

5

HIGHLY RELEVANT

6. Appropriateness: Are the recommendations consistent with evidence-based practices (e.g., CBT) for the client's presenting issues?

INAPPROPRIATE

1

2

3

4

5

APPROPRIATE

D. OVERALL UTILITY

7. Overall Value for Session Prep: How useful would this report be for session preparation and treatment planning?

NOT USEFUL

1

2

3

4

5

VERY USEFUL

What is the most clinically valuable component of this report? (Long Form):

Qualitative Feedback (Long Form):

PART 3: PSYCHOLOGIST REPORT (SHORT FORM)

A. CLARITY & STRUCTURE

1. Information Hierarchy: Does the report structure (Risk Factors > Observed Data > Likelihood > Recommendations) logically support clinical case formulation?

CONFUSING

1

2

3

4

5

VERY CLEAR

2. Conciseness: Is the report appropriately summarized, presenting key data points without unnecessary detail?

TOO DETAILED

1

2

3

4

5

JUST RIGHT

B. CLINICAL ANALYSIS

3. Identification of Factors: Does the report accurately identify relevant risk and protective factors based on the provided data?

INACCURATE

1

2

3

4

5

HIGHLY ACCURATE

4. Likelihood Assessment: Is the likelihood assessment for future panic attacks well-reasoned and justified by the evidence presented?

POOR

1

2

3

4

5

WELL JUSTIFIED

C. TREATMENT RECOMMENDATIONS

5. Relevance: Are the treatment recommendations directly linked to the observed data and identified risk factors?

IRRELEVANT

1

2

3

4

5

HIGHLY RELEVANT

6. Appropriateness: Are the recommendations consistent with evidence-based practices (e.g., CBT) for the client's presenting issues?

INAPPROPRIATE

1

2

3

4

5

APPROPRIATE

D. OVERALL UTILITY

7. Overall Value for Session Prep: How useful would this report be for session preparation and treatment planning?

NOT USEFUL

1

2

3

4

5

VERY USEFUL

What is the most clinically valuable component of this report? (Short Form):

Qualitative Feedback (Short Form):

PART 4: COMPARATIVE EVALUATION

1. Preference: Which report format would you prefer to receive before a patient session?

- ☐ Short Form (Psychologist Report) ☐ Long Form (Main Report)

2. Why?

3. Final Comments:

END OF EVALUATION FORM
